SHARK/FISH TAG RECAPTURE

Shark and Fish Tag Recapture

- See Table 2 and Table 3 for samples and length measurement descriptions to collect from tag recapture animals (excluding pelagic species).
- **All** tag recaptures should be recorded on the Individual Animal Log and fully sampled if possible (*i.e.* weather permitting and without interfering with the processing of a kept fish).
- Information to record:
  Tag #
  Species
  Tag program name, address and/or phone number
  Comments regarding the animal condition at the tag location
